■ AURELIA II DIGIT.

Aurelia II was the 2012-2014 World Barista Championship official espresso machine. Aurelia II is dedicated to demanding professional baristas because it guarantees advanced performance in terms of accuracy, extraction quality, flexibility and consistency of results.

Nuova Simonelli is an Italian company with many years of experience and tradition. It has made and exported espresso machines all over the world since 1936 and today, it boasts a range of products that meet the requirements of the hospitality trade across the board. Investment in R&D and

developing new solutions has brought recognition through its association with the World Barista Championship and Compasso d'Oro. Espresso Mechanics is the exclusive importer and distributor of Nuova Simonelli coffee equipment in Australia and New Zealand.

■ VA388 BLACK EAGLE GRAVITECH.

Is the espresso machine for all those who dedicate their lives to coffee, those who study, research and experiment every day to transfer a real coffee experience to the cup. This is the espresso machine for the specialty barista.

Victoria Arduino was founded in 1905 by Pier Teresio Arduino, with the aim of building an espresso machine that did not compromise on quality, materials or performance. The result redefined the parameters of modern espresso coffee machines. The company is now based in Belforte del Chienti,

Italy, and continues the tradition started by Pier Teresio Arduino, by investing in research to discover and develop the most advanced espresso technologies available around the world today. After more than a century, Pier Teresio Arduino's vision for the ultimate coffee machine continues to guide

■ MYTHOS ONE.

The Specialty grinder Mythos One is the new generation of on-demand coffee grinders with the highest level of technology and many smart devices to meet the needs of the most demanding barista. Innovative Clima Pro technology and the Clump Crusher system ensures dose consistency and regularity in the coffee stream outflow, giving better extraction quality.

Victoria Arduino's thoughts, actions and ambitions for creating products with innovative technology and design. Victoria Arduino is the 2015-2017 World Barista Championship official partner with its VA388 Black Eagle espresso machine. The Black Eagle is used

by the world's best baristas, the people who all share the same passion that drives it in its mission to build the ultimate espresso coffee machine. Espresso Mechanics is the exclusive importer and distributor of Victoria Arduino coffee equipment in Australia and New Zealand.

■ KOLD DOSER-AUTOMATIC.

The KOLD was developed to deliver high output. The newest advancement from Mazzer. The KOLD Grinder with belt driven transmission, conical grinding blades and slow speed rotation is suitable for high consumption. Micrometrical grinding adjustment. Available with on-demand grinding with electronic dose adjustment. Single and double dose with independent adjustment. Digital display with shot counter. Double ventilation device with electronic control to keep the motor and grinding chamber cool.

■ MIGNON ON-DEMAND.

The trendy Mignon has on-demand stepless micrometrical grinding adjustment. Timer/Manual button switch and push/pull timer knob. Fork filter holder with two positions.

Mazzer products, entirely manufactured in Italy in the factory of Gardigiano Scorzè (Venice), are all certified and distributed in 90 countries. Certifications are an absolute guarantee of quality and safety and have contributed to making Mazzer products recognisable and appreciated worldwide, making them the

preferred choice for the most prestigious Italian and foreign coffee industries. Espresso Mechanics imports and distributes Mazzer coffee equipment in Australia and New Zealand.

Eureka designs and manufactures reliable, beautiful and easy-to-use "made in Florence" coffee grinders with elegant designs and innovative technology. Eureka aims at being the reference for innovation in the coffee grinder industry with its wide range of professional grinders for any type of coffee. Eureka's

certifications allow it to operate throughout the world and ensure compliance with local standards and regulations. Italian technology and design, and a passion for coffee: this is Eureka! Since 1920. Espresso Mechanics imports and distributes Eureka coffee equipment in Australia.

BRITA®
Professional

■ BRITA VIVREAU VI DISPENSER.

Instantly dispenses filtered chilled, still and sparkling water plus boiling water from a single tap. BRITA has set the standard with the new advanced BRITA Vivreau Icebank and Vi MaxBoil technology, delivering unparalleled quantities of boiling and chilled water at the correct temperature to satisfy peak demand times. Designed and manufactured in the UK and Europe. Europe now available to the Australian and setting the standard. Espresso mechanics can install and service the Brita Vivreau VI and Bottler systems across Australia and New Zealand.

Brita Professional GmbH & Co. KG purity filters are available as large filters and in cartridge format. No more labourious servicing of high-quality machines, as ions in the water provides reliable protection against limescale build-up. This increases the lifespan of the machines significantly and saves users money,

as well as removing unwanted tastes and odours from water. With a Brita Professional purity filter, the aromas of the beverages and meals allow themselves to fully develop. Espresso mechanics is proud to supply and install BRITA Purity and Finest Water filtration solutions.

■ REX-ROYAL S300 MCTI.

In addition to fresh milk and coffee processing, the Rex-Royal S300 MCTI can prepare beverages such as hot chocolate and vanillocchino at the touch of a button, thanks to an integrated instant module. The S300 MCTI stands for the unadulterated enjoyment of coffee, instant and fresh-milk beverages. You can choose from a wide range of fridges as add-on units.

rex royal

Innovation and quality have long been closely associated with the name HGZ as it's constantly developing new path-breaking products and technologies. A brilliant example of this is seen in the multi-function TouchScreen of the current Rex-Royal models. Even the durable and maintenance-friendly

brewing unit belongs to HGZ's pioneering innovations. It's refining its products so that you can enjoy consistently prepared coffee into the future. Espresso Mechanics is the exclusive importer and distributor of HGZ Rex Royal coffee equipment in Australia and New Zealand.
